CAG UPDATE

EPA DELISTS OU1 AGAINST ADVICE OF CAG AND EXPERTS

Kim Morse, CAG Administrator

The Community Advisory Group and its technical adviser — during the past couple of years — repeatedly challenged the underlying assumptions and data that the EPA relied on in creating the Record of Decision for this Operable Unit. We exposed its flaws, identified from EPA's own documents, but the EPA has concluded the Remedy is complete and is protective based on the Record of Decision and the narrow standards applied.

We remain concerned that the narrow standards used by the EPA to define its clean-up of the site leaves existing and future residents at risk of life-threatening health issues. We believe that the EPA has a responsibility to remove the limited lens through which it laid the groundwork for this delisting and to re-examine the assumptions and basis on which it addressed its status as a Superfund Site.
